

ENG4U1 PERSONAL WRITING RESPONSE

WHO ARE YOU AND WHAT MAKES YOU UNIQUE?

- Our first unit of study in the course focuses on examining **personal** and **persuasive** essay writing topics and techniques from various authors, including yourself. In order to begin, I want you to start thinking about who you are and what (if anything) makes you unique? Consider why a university would admit you to their institution above someone else in this classroom?
- In the space provided below, I want you to tell me about yourself. Who are you as an individual and/or as a student? What makes you interesting? What sets you apart from everyone else in this classroom? What do you want me to know about you? Write a thoughtful profile about yourself (which discusses your interests, successes, goals, etc.) or focus more on one particular experience, memory, philosophy, passion or future aspiration that represents who you are. Be **honest** and **creative** in your response. Believe it or not, it's already time to get personal, so be authentic and introspective.
